

ICCM-Americas 2026

The intersection of technology and mission since 1989

When: **July 14-18**

Where: Taylor University
Upland, Indiana

Cost: \$540
(discounts available)

What is ICCM?

The International Conference on Computing and Mission (ICCM) is an annual informal gathering of women and men who have a common interest in computers and mission.

We share a vision of cooperation for effective use of technology, bringing the Gospel to every nation.

Spirit-Led Intelligence

Artificial intelligence is advancing rapidly. Will we build with **biblical wisdom**? Our keynote speaker, Yvonne Carlson, CTO of Global Media Outreach and leader in responsible AI, will call us to Spirit-Led Intelligence, **shaping technology for God's mission.**

Who is ICCM for?

Typical Day

- ✓ Group gatherings with worship and devotions in the mornings.
- ✓ Prayer Pals. Times for personal connection, encouragement, and prayer.
- ✓ Keynotes and main sessions focusing on technology, mission focus, or community building.
- ✓ Multiple breakout sessions where participants share skills, ideas, and technical insights.
- ✓ Various special events happen every evening.
